Tidbits

Adam plays soccer three times a week – plays in 2 leagues – top scorer and MVP several times.

Adam is a cyclist... “I will go visit my grandmother which means cycling 105 miles through the mountains. At which time I perform a whole concert in my head. Because of the speed – my brain is short of oxygen. If I succeed to play the concert in my head without mistakes on such occasions, then I will have less problems at the concerts.” AG
